

THE NEW SEAT ATECA

TECHNOLOGY TO ENJOY

THE NEW SEAT ATECA

Advanced urban life with the New SEAT Ateca.

WHEN YOU CHANGE YOUR PERSPECTIVE YOU REALISE THAT THE EVERYDAY CAN BE A WONDERFUL THING. The New SEAT Ateca has been designed to make the ordinary a little extraordinary and offers the most advanced technology to help you appreciate the best of the day-to-day, every day.

ADVANCED PERFORMANCE

Confidence
on every road.

DRIVING IS MORE ENJOYABLE WHEN YOU CAN APPRECIATE THAT THE ENGINE IN THE NEW SEAT ATECA IS NOT JUST POWERFUL BUT ALSO EFFICIENT. The 4Drive engine lets you take on the toughest terrains and the automatic traction distribution adapts to road conditions, instantly improving grip. DSG combines the comfort of an automatic with the speed and dynamism of a manual, meaning shifting gears is smoother and faster. The all wheel drive in the New SEAT Ateca is also one of the most modern and efficient in the world, using a multi-plate coupling with hydraulic actuation and electronic control. Driving on any road becomes a pleasure when you can sit back and enjoy advanced urban performance in every aspect.

EXTERIOR DESIGN

Effortless character.

THE NEW SEAT ATECA TAKES ON THE DAY-TO-DAY WITH A CONFIDENT LOOK. Its distinctive, dynamic style is confirmed with every sharp line and a strong profile that's further enhanced by Full LED Headlamps, 19" alloy wheels and chromed roof rails. The double chromed exhaust pipe and chromed window frames, which are optional with the Style trim and come as standard with the Xcellence version, make this car stand out on the streets. Form meets function in the Welcome Light, helping the driver find their way in the dark. Every detail of the New SEAT Ateca has been crafted with incredible attention, and the result? The most advanced urban SUV that can take on the everyday effortlessly and looks great doing it.

INTERIOR DESIGN

The bright side of life.

COMFORT COMES FIRST ON ANY RIDE AND NOT ONLY IS THE NEW SEAT ATECA roomier and better equipped for your day to day, the interior is also upholstered with high quality materials throughout and comes with a leather steering wheel and gear stick. Multicolour Ambient Light allows you to set the tone for every ride and the mood for everyday.

MULTICOLOUR AMBIENT LIGHT

The perfect integration of ambient lighting in the door with a cascading effect that elegantly illuminates the mouldings.

TECHNOLOGY & CONNECTIVITY

Street smart.

STREAMLINE YOUR DAY AND STAY CONNECTED WITH FULL LINK TECHNOLOGY IN THE NEW SEAT ATECA. You can enjoy your mobile apps in your car on the 8" Infotainment touch screen. This is the first car that looks conceptually into the console design to create the easiest access and use with your smartphone. The Parking Heater feature allows you to set the perfect temperature for your car before you enter, meaning winter mornings will offer a warm welcome, whatever the weather conditions. Thanks to technology, parking also becomes a pleasure as the Top View Camera allows you to see around every corner and offers 360 degree views of the surroundings with dynamic lines that help guide the driver when parking. What's more, the SEAT Drive Profile with Driving Experience Button allows you to optimise your driving experience.

TOP VIEW CAMERA & PARK ASSIST
Offers 360° views of the surroundings of the car while parking, with dynamic lines to guide the driver through the parking manoeuvre.

FULL LINK

Sync your smartphone with your car's infotainment when you're on the move. Includes MirrorLink™, Apple CarPlay™ and Android Auto™.

LANE ASSIST

Lane Assist helps you remain in the intended lane of travel, warning you if you start drifting into another.

SEAT DRIVE PROFILE WITH DRIVING EXPERIENCE BUTTON

Choose from Normal, Sport, Eco Individual and 4DRIVE drive modes. With 4DRIVE you can optimise your driving for Off-Road and Snow conditions.

WIRELESS CHARGER
You can conveniently place your mobile phone on the wireless charger and never worry about running out of battery.

DRIVER-ORIENTED CONSOLE
An ergonomically designed central console that makes everything easily accessible for the driver.

HANDS-FREE ELECTRIC BOOT WITH KEYLESS SYSTEM
Unlock and lock the boot depending on your proximity to the vehicle, and with a virtual pedal you can open and close the boot door without using your hands.

FUNCTIONALITY

A modern sidekick.

WHEN YOU HAVE ALL YOU NEED AT YOUR FINGERTIPS, YOU CAN RELAX AND TAKE PLEASURE IN THE LITTLE THINGS YOU MAY NOT USUALLY HAVE THE CHANCE TO APPRECIATE. The New SEAT Ateca has been designed to make life easier; from the ergonomic driver oriented console to the Wireless Charger, everything inside helps your day without a hitch. Not only is this car functional for city life but it's also versatile enough to handle all you may need it for, it even comes with an Electric Towing Hook that folds out at the touch of a button.

SAFETY

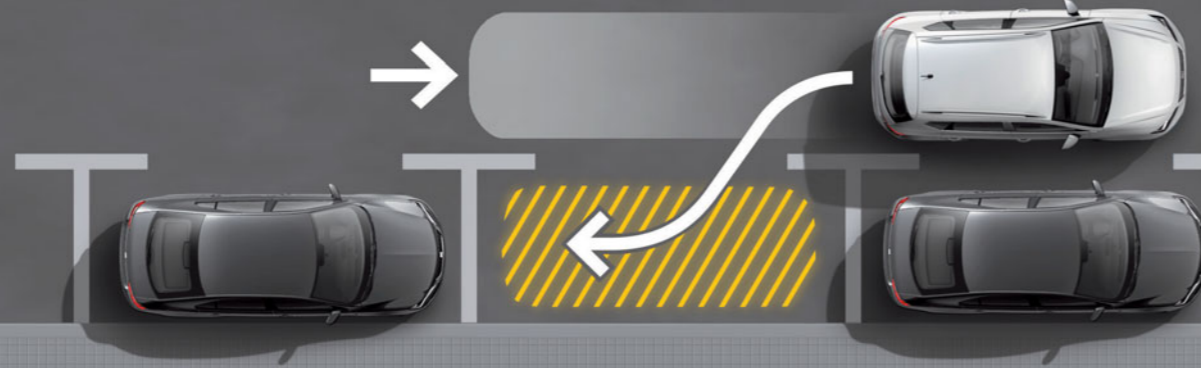

Urban safety.

SAFETY IN THE CITY COMES FROM ANTICIPATING HOW TO SIMPLIFY A SITUATION BEFORE IT BECOMES AN ISSUE.

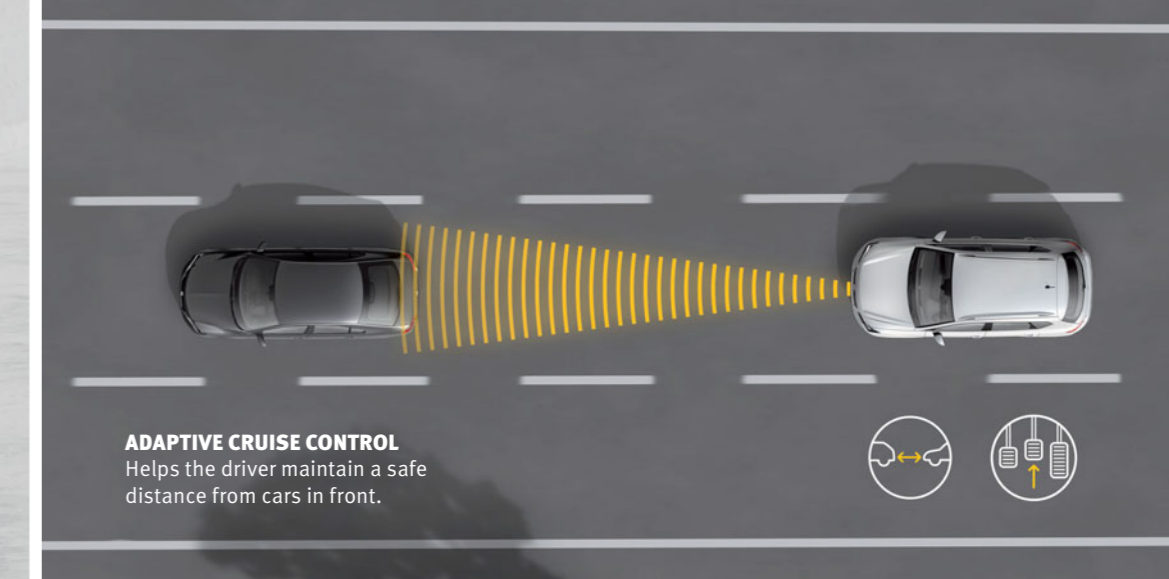

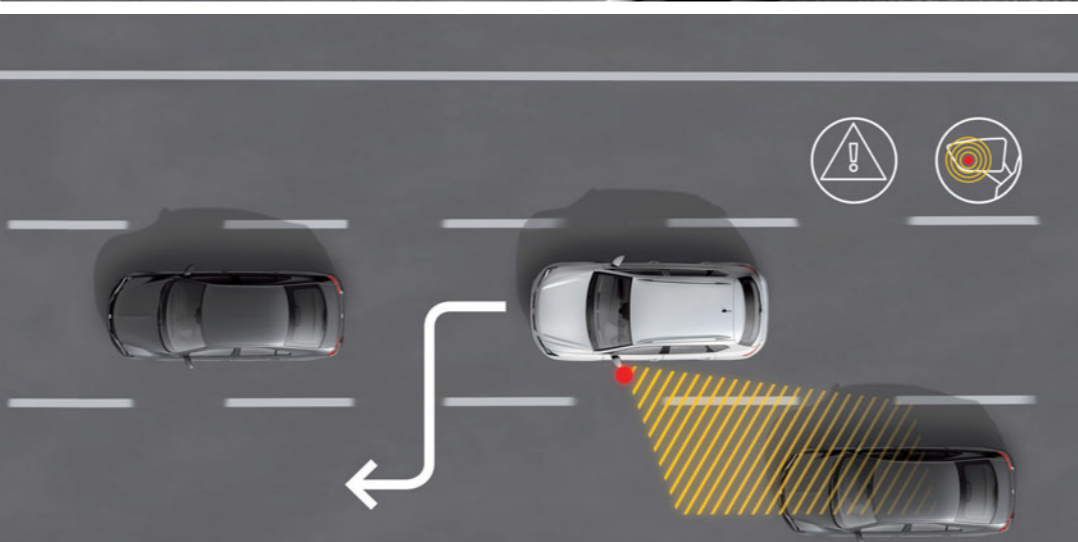

Blind Spot Detection with Rear Cross Traffic Alert helps to make everyday changing lane manoeuvres safer by detecting potential vehicles not visible to the driver and offering a warning. It also makes rear parking manoeuvres safer as it stops the car if other vehicles are crossing. Adaptive Cruise Control will help the driver maintain a safe distance from cars in front and Traffic Jam Assist* helps with stopping and starting when you find yourself stuck in congestion.

PARKING LANE ASSIST

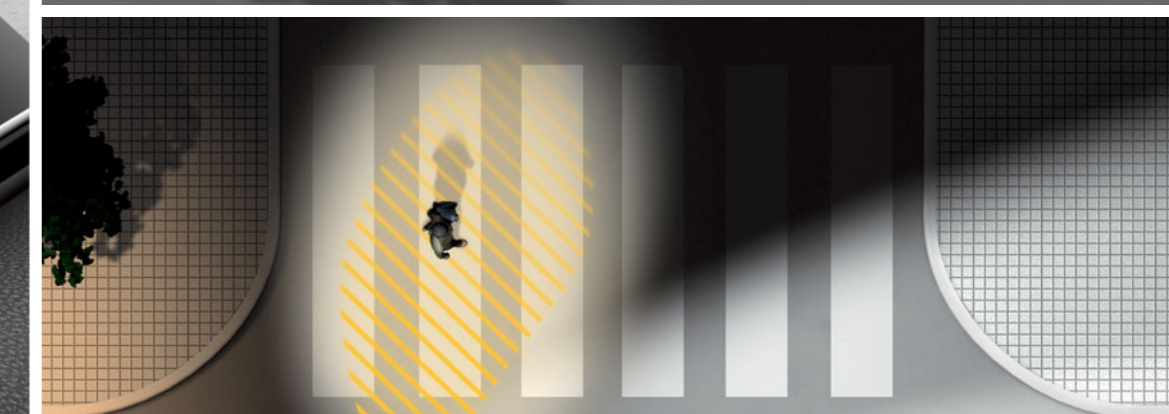

Takes the stress out of parking as ultrasonic sensors measure the distance between the rear of the vehicle and other objects. This feature even takes control of the steering wheel while manoeuvring.

BLIND SPOT DETECTION WITH REAR CROSS TRAFFIC ALERT
Makes driving on motorways safer as it detects vehicles not visible to the driver and offers a warning.

ADAPTIVE CRUISE CONTROL
Helps the driver maintain a safe distance from cars in front.

CORNERING LIGHTS
Offers extra safety when driving at night by allowing the driver to see further around corners.

*Only available in DSG models.

EXTRAS

Everyday
extras.

THE NEW SEAT ATECA COMES WITH A WIDE RANGE OF ACCESSORIES to choose from so you can make it perfect for exactly what you need it for. Whether it's to allow you to carry more with you or just to make the ride a little more comfortable, there are plenty of accessories to choose from.

SIDE SILLS FOIL
Protects the passenger entrance areas with an adhesive strips that adapt to the shape of the door sills.
(575071310)

BOOT ORGANIZING NETS
Keeps your load safe. This tray stops it from moving and prevents damage while you drive.
(5P5861873)

REAR BUMPER PROTECTIVE MOULDING
Protects the rear of the car when loading and unloading the boot.
(575061155)

SEAT is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While SEAT makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised SEAT Partner for the latest information. Due to limitations of the printing process the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
